Customer Guaranteed Service and Quality

Scully's Aluminum Boats is the south's leader in building custom aluminum boats and other metal applications. We are outfitted with today's newest technology to make your boat exactly like you need it. From the very first stage of the computer design to the final finishing touches, we make sure quality is number one.

The layout of each boat is completely your choice depending on what you will be using your new boat for. Whether it will be Response, Seismograph, Surveying, Line Handlers, or any other, our boats are built strong enough to get the job done and get it done in style.
